

Case History 131

COLLEGE/UNIVERSITY USE: Gardner-Webb University in Boiling Springs, NC has been relying on the Switch-N-Go™ system since 2009

Wayne Johnson- Grounds Maintenance Supervisor Gardner-Webb University “After our purchase, the university ran the numbers and with Switch-N-Go’s costs savings, I’m a hero here!”

Gardner-Webb University has one Switch-N-Go™ truck system which services both the Grounds Maintenance for the school, AND the school was able to replace their dumpster container rental service with their own Switch-N-Go™ containers. No more rental fees!

The University was able to replace 5 rented dumpsters that were located at each of their dorms. At an average rental fee of \$300 per month per dumpster, that would be a yearly savings of \$18,000! No wonder Wayne is a hero!

The school has now joined major universities like Harvard (who has two Switch-N-Go™ systems), and the University of Pittsburgh who has multiple bodies for every season.
